

Impact XP Product Safety Data Sheet.

Issued January 2011

Identification of the substance / preparation and company.

Trade name: Impact Gold

Manufacturer: Linemark UK Ltd, Units 1-2 Riverside Business Park, Holme Lane,

Rawtenstall, Lancs. BB4 6JB Tel:01706 212030 Fax: 01706 213737

Composition / information on ingredients.

Substance: No Cas: No Preparation: Yes EINECS: No

This product is an emulsification of pigments and water-based emulsions.

Health and Safety classification: Not applicable.

Warning symbols: Not necessary.

Hazards identification.

Eyes: Non Hazardous Skin: Non Hazardous Inhalation: Unlikely to occur

Pressure injection: Injection of all products will cause severe internal damage if not treated properly.

Special hazards after use: None known.

First aid measures.

Eyes: Flush immediately with cool, clean water for at least 15 minutes and seek medical attention if irritation occurs.

Skin contact: Remove contaminated clothing. Wash effected areas with non-abrasive soap and water.

Inhalation: Not applicable.

Ingestion: Do not induce vomiting in case of aspiration, seek medical advice.

Pressure Injection: Always obtain immediate medical attention even though the injury may appear minor.

5. Fire fighting measures.

Flammability: Non flammable.

Flash point: (PMCC 0C) > 3000C. Product boils at approximately 1000C.

General: Impact Gold is non flammable although if in fire conditions will burn to give a dense acid smoke, especially if absorbed into burning wood, etc.

Extinguishing media: Water extinguishers.

Special exposure hazards: In fire conditions, this oil will burn to give a complex mixture of combustion and decomposition products. These are irritation to the eyes and nasal passages.

Products of combustion and decomposition: Carbon, oxides of carbon.

6. Accidental release measures.

Even a small spillage can lead to a slipping hazard. Mop up with oil absorbent granules and clean area with hot water and detergent. Prevent product from entering drains, surface and water, although no environmental impact is envisaged.

Handling and Storage.

No special hazards in handling and storage. No fumes are involved and no local exhaust ventilation is required except if handling hot products. Maintain good industrial practice, wear non-absorbent gloves. Protect from temperatures below 70C.

Exposure controls / personal protection.

Eye protection: Not required unless using hot oil when safety glasses or goggles should be mandatory.
