The **Impact Glider** has been carefully designed to give trouble free service for many years under normal use.
The warranty below is there to give peace of mind for those rare occasions when a major part fails.

Glider Warranty

The 12 month warranty covers all parts of the Glider machine except:
Nozzles, filters and rubber seals, unless faulty on receipt of the machine.
Damage to the machine or fittings caused by inappropriate handling by the operator.

Damage by a third party, intentionally or otherwise.

Please note:

Modifications or alterations not authorized by the dealer or manufacturer, as well as using non Linemark paints and cleaning products, will render the warranty invalid.

The warranty only takes effect when the printed warranty slip is completed and returned to Linemark SA, or one its appointed agents.

Please return warranty slip after your initial checking of the machine is completed, and this **must** be done **within 14 days of purchase**.
